Rockford Manufacturing Going Strong

The world's largest telescope is being built here in Rockford! The Giant Magellan Telescope among other things will be able to tell us if there is life beyond earth. Its construction in Rockford

highlights how Rockford and Illinois are still at the center of innovation and manufacturing.

Public Safety Remains Top Priority

I was honored to be part of the ceremony swearing in seven new police officers who will serve and protect our community. These new officers bring fresh perspectives and a strong commitment to serving our residents, and I am confident they will uphold the values and standards we expect. Together, we are working to create a safer Rockford for all.

Rockford is Rocking

Hard Rock Casino Rockford is officially open! After decades of hoping and years of planning, we've made it a reality, opening with 900 new hires and making an incredible impact in our community. A big thank you to everyone who made this possible.

Downtown Revitalization

A building that has sat vacant for three decades gets a jolt of life! The redevelopment at State and Main Street will be home to downtown's first Starbucks. The ground floor has space for one more business, while the second and third floors are loft office space. Starbucks' investment in this space clearly demonstrates the growing strength and appeal of our downtown area.
